

QC – Up-Divert

Flip Plate (Tipper Plate)

Plow Kit

Check our website for updates and all available attachments!

Design:

- ✓ Tool-less design – No tools needed to perform most set-ups/changeovers
- ✓ Vacuum belt construction is of a friction resistant backer with a 55D rubber cover, perforated for vacuum integration – The slippery backer provides an extremely low coefficient of friction (belt to fixed surface).
- ✓ Each sector of tube is vacuum regulated (2 sectors per tube). This vacuum system is engineered for consistent; even pull-down - “loaded” or “open deck” – **STALL RESISTANT AND POWERFUL**
- ✓ Component design – All pivot points have bushings - expense not a factor in assembly – all components designed to last.
- ✓ No tab/air blasters - Linemods utilizes air assisted mechanical ramping assemblies that are easy to set-up and use a fraction of the air – Ties into existing glue system controller or Linemods multifunction PLC.
- ✓ 2-year warranty – We are confident with our parts/equipment designs and back new equipment with a 2-yr. warranty.
